Construction Schedule Reviewer***

Washington State Department of Transportation (WSDOT) solicits interest from consultants interested in submitting a Statement of Qualifications for a Construction Schedule Reviewer for the SR 104, Hood Canal Bridge Replacement Project. WSDOT will be awarding one (1) agreement. The agreement will be for four (4) years duration and will be for approximately \$760,000.

Project Description

The project will replace the east and west concrete approach structures and the steel transition spans as well as replacing the east half of the floating bridge structure and anchors for the Hood Canal Bridge on SR 104.

Because of the magnitude and complexity of this project, WSDOT will need to be monitoring the construction schedule on a daily basis to minimize the risk of delaying the contractor. It is WSDOT's intent to hire a specific individual that will provide the expertise to monitor the construction schedule. The selected consultant will be very key in minimizing delay claims from the contractor. The selected consultant will review the construction schedule and will dedicate their entire effort to analyzing what work is planned, what role does WSDOT play in each work item, and how can WSDOT stay ahead of the contractor at all times. The selected consultant will report directly to the WSDOT Assistant Project Engineer and will work at the Port Orchard Project Engineer Office on a full-time basis for the duration of the construction project.

Note: We will consider firms with construction project experience only.
